

Syntax Project Forecasting Lite

Ensure your job site project is on-time and on-budget with cost-effective forecasting solution

- Easy to deploy and use
- Forecast project-level costs
- Keep projects on track

Overview

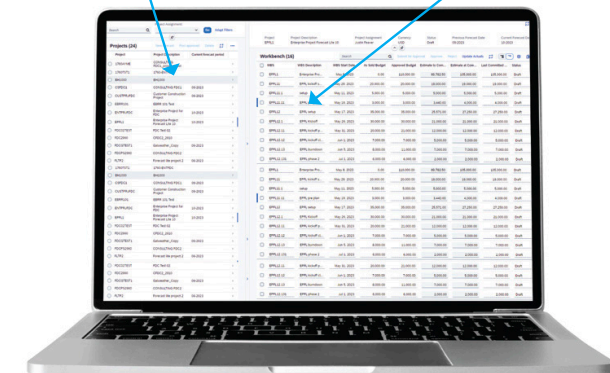

Project-based organizations often struggle to have clear visibility into their job sites, risking project success. Many of the forecasting tools on the market are cumbersome to use, difficult to integrate, and costly to implement.

Project Forecasting Lite is a practical solution for project forecasting built on the SAP Business Technology Platform and fully integrated with SAP S/4HANA Cloud, Public Edition. With Project Forecasting Lite, you can evaluate predicted financial progress against actuals and ensure forward-looking visibility. This will enable you to keep projects on track for an on-time, on-budget finish.

Key Features

- Generate rolling forecast against key project financial metrics
- Review actual costs against forecast with granular cost component detail including equipment, labor, material, and expenses
- Fully integrate with SAP S/4HANA Public Cloud
- Built on SAP Business Technology Platform

Projects (24)			Workbench (16)			
Project	Project Description	Current forecast period	WBS	WBS Description	WBS Start Date	As Sold
1760AYME	CONSULTING FDC1_proserve test		<input type="checkbox"/> EPFL1	Enterprise Pro...	May 8, 2023
