With solutions designed to tackle unique challenges and accelerate success, our extensive Mill Products experience has enabled us to expand our IP to include specific segments like lumber and pulp.

Intelligent Technology Designed for Mill Products Companies

The lack of integration between lines of business, supply chain disruptions, rising operational costs, and increasingly demanding customers: these are just a few of the challenges your company faces. Yet, in spite of these, many companies continue with separate systems, manual processes, and inaccurate information — the opposite of how an intelligent enterprise should function.

With a comprehensive software solution from Illumiti and SAP, your Mill Products company can ensure it has the technology in place today to support tomorrow's growth initiatives and profitability goals. With pre-configured business processes based on industry best practices supporting requirements in areas including Financials, Customer Management, Manufacturing, Procurement, Logistics, Customer Service, and Analytics.

Our Next Solutions for Mill Products is built on top of SAP® S/4HANA and is designed to facilitate rapid implementation of the software for medium-sized manufacturers. Select from our three scenarios to choose the right option for your business

Option 1: Implement standard SAP Best Practices with Illumiti IP Included

Option 2: Option 1 plus enhancements to adapt to differentiating business processes

Option 3: Option 2 plus integrating SAP S/4HANA into a clients IT landscape, including best of breed applications

Package Price: Starts at \$1,500,000 USD
