

Syntax GenAI Starter Pack

Kickstart Your Journey to Safe, Rapid GenAI Adoption

Low risk. Low cost.

Ready to deliver strategic value in weeks.

Unlock the transformative power of Generative AI (GenAI) with the **Syntax GenAI Starter Pack**—a complete, pre-configured solution designed to eliminate complexity and accelerate value creation. With ready-made tools tailored to business needs, customers can seamlessly plug in their data and deploy a fully functional GenAI platform in just a few weeks.

Our low-risk, minimal-cost approach ensures a safe and controlled environment, empowering organizations to securely experiment with GenAI capabilities. It's time to move beyond discussions and bring GenAI to life—strategically, securely, and effortlessly.

GenAI Adoption Challenges

Deploying GenAI can feel daunting for many organizations, with uncertainty about where to start or which technologies to adopt. This hesitation often results in corporate delays, while employees turn to less secure, publicly available tools—exposing the business to security risks and preventing the strategic and structured deployment of GenAI.

Barriers to adoption include:

Cost

Concerns about upfront investments and long-term scalability and updates.

Cultural Shift

Resistance to change, lack of trust in AI-driven processes, and the need to rethink workflows to foster experimentation and innovation.

Data Protection

Risks tied to improper use of sensitive data in AI models.

Implement GenAI with Simplicity, Speed, and Security

Overcome common AI adoption challenges and elevate your business in just a few weeks with the **Syntax GenAI Starter Pack**, a solution purpose-built to make GenAI adoption effortless, swift, and secure. With built-in governance, security, and access controls, combined with a six-month risk-free backout clause, companies can confidently test GenAI capabilities while retaining full control over their selection of the best-fit large language models (LLMs) and cloud services. Free from vendor lock-in, this approach ensures flexibility and peace of mind.

Core elements include:

Strategy Session

Benefit from an expert-led introduction to GenAI and strategy session to craft a clear plan, define expectations, and align the investment roadmap.

Use Case Workshop

Uncover high-impact and customized use cases, evaluate business outcomes and technical feasibility, and determine prioritization for maximum value.

Governance Session

Navigate regulatory compliance, master actionable AI governance frameworks, and explore best practices and tools.

GenAI Stack Platform Deployment

Configure a tailored GenAI platform, select optimal hyperscaler cloud services and LLM, integrate data, and build a robust knowledge base.

AI Agents Enablement

Launch a secure private conversational AI agent with integrated knowledge base for ongoing support and scalability, establishing essential guardrails and private data.

Syntax also offers managed services for ongoing management, support, and optimization of the GenAI platform and use cases.

Discover the Benefits of the Syntax GenAI Starter Pack

► Accelerated Deployment

Scale from zero or isolated applications to fully managed GenAI deployments in weeks.

► Low-Risk Adoption

Explore AI for six months with flexible decisions—no commitments or vendor lock-in.

► Cost-Effective Solution

Start your AI journey without heavy upfront investments.

► Empowered Transformation

Leverage GenAI expertise to achieve impactful business outcomes.

► Continuous Support

Fast track to managed services and innovation without the burden of long-term hiring or upskilling internal know-how.

Why Syntax for GenAI

► ERP Knowledge

Decades of ERP integration and data expertise.

► Industry Expertise

Tailored GenAI solutions aligned with industry trends.

► GenAI Expertise

Global team developing cutting-edge GenAI solutions.

► Future-Ready Platform

Modular innovation with flexible cloud and LLM options.

► Proven AI Agents

Pre-built, deployment-ready agents for rapid adoption.

About Syntax

Syntax provides comprehensive technology solutions and trusted professional, advisory, and application management services to power businesses' mission-critical applications in the cloud. With 50+ years of experience and 900+ customers around the world, Syntax has deep expertise in implementing and managing multi-ERP deployments in secure private, public, hybrid, or multi-cloud environments.

Syntax partners with SAP, Oracle, AWS, Microsoft, and other global technology leaders to ensure customers' applications are seamless, secure, and at the forefront of enterprise technology innovation.
