

Syntax digital factory: Intelligent enterprise for GROW with SAP

**Makes SAP software work for you quickly
and at a surprisingly affordable price**

SAP® Qualified
Partner-Packaged Solution

Supply chain disruptions, rising input costs, shifting customer demands, and uncertain inventory levels are just a few of the mounting threats that manufacturers face today. These challenges intensify existing concerns about revenue growth and profit margins, making it increasingly difficult for companies to navigate the best path to growth and prosperity. To thrive in this volatile environment, manufacturers must optimize every aspect of their operations. This requires staying on top of key performance metrics such as production rates and yields, asset utilization, process cycle efficiency, energy consumption, and quality control measures.

Welcome to Syntax

Recognizing the numerous challenges facing manufacturers today, our team at Syntax has developed an SAP GROW Certified Pre-Package that enables manufacturers to quickly and efficiently implement and run SAP S/4HANA at a low cost. This package empowers manufacturers to streamline their processes, enhance visibility, and drive sustainable growth amidst the industry's uncertainties. Our GROW package is built on top of SAP® S/4HANA

Public Cloud Edition and includes our Manufacturing Solution Accelerator, leveraging pre-configured business processes and industry best practices to implement quickly and efficiently. This comprehensive offering includes GROW with SAP, providing a complete suite of solutions, best practices, adoption acceleration services, community support, and learning resources to help you adopt Cloud ERP with speed, predictability, and innovation.

Solution benefits of S/4HANA Public Cloud for manufacturing

Increase agility

Optimize your production mode with clear insights into demand and configuration requirements, ensuring timely delivery of analysis to the right stakeholders.

Achieve sustainable operations

Foster a predictive, proactive, and compliant workplace culture with advanced and automated hazard identification and risk mitigation.

Enhance efficiency

Speed up cycle and task times by streamlining execution processes, and boost capacity without extra overhead by effectively balancing your production resources.

Improve customer responsiveness

Gain real-time visibility and transparency in manufacturing operations, optimize processes, collaborate in global networks, and reduce total manufacturing costs. Discuss and explore topics such as production planning, quality management, process manufacturing, discrete manufacturing, material requirements planning, and capacity planning.

Syntax packages

Option 1

GROW Foundational

▪ Provisioning and setup

- Provisioning and setup of base system landscape (S/4HANA Cloud Starter, Development, Quality and Production System) plus mandatory services (SAP Cloud Identity Services, SAP Central Business Configuration, SAP Cloud ALM and SAP BTP global account)

▪ Processes

- SAP Best practice for S/4HANA Cloud
- Sales, Standard Processes for Finance*, Procurement, Inventory Management, Supply Chain, Asset Accounting, Lean Manufacturing with Lean Quality Management
- Implementation with SAP Cloud ALM

▪ Integration

- Integration of required cloud services and processes based on best practice scope
- Monthly SAP Subscription
- GROW subscription fee (SAP S/4HANA Public edition base) - 15 user

▪ Package price

- Starts at \$490,000 US + \$8000 US monthly SAP GROW subscription fees
- Optionally: Application management support and Syntax cloud services for S/4HANA
- Production start within 14 weeks

GROW Basic

Essential Manufacturing

(Based on GROW)

Standard Processes provided
by Public Cloud (GROW)

Integration Solutions

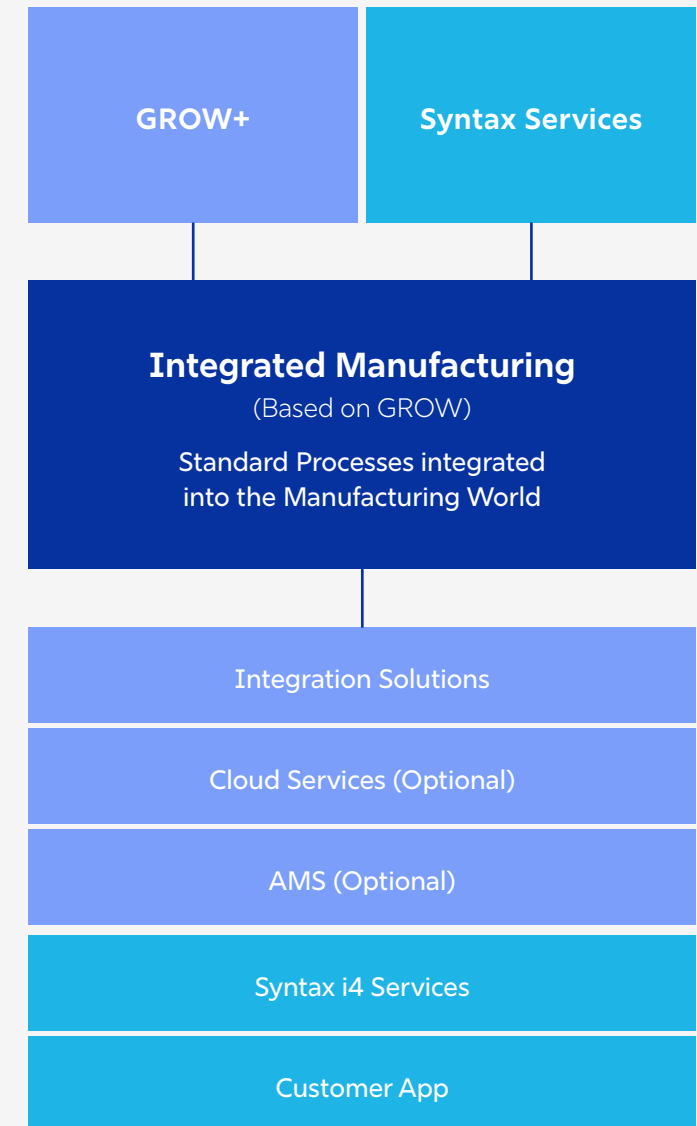

Cloud Services (Optional)

AMS (Optional)

Option 2

GROW Enhanced

- **Fast-integrated into existing landscape**
- **Provisioning and setup**
 - Provisioning and setup of base system landscape (S/4HANA Cloud Starter, Development, Quality and Production System) plus mandatory services (SAP Cloud Identity Services, SAP Central Business Configuration, SAP Cloud ALM and SAP BTP global account)
 - Setup of SAP Integration Suite, SAP Document Reporting and Compliance and SAP Build
- **Processes**
 - SAP Best practice for S/4HANA Cloud
 - Sales, Standard Processes for Finance*, Enhanced Procurement, Inventory Management, Supply Chain Management, Asset Management, Manufacturing with Standard Quality Management
 - SAP Document Reporting and Compliance processes plus defined SAP Build Apps and automations including scoped SAP Integration Suite flows
- **Integration**
 - Integration of required cloud services and processes based on best practice scope plus additional cloud services of Syntax grow enhanced package
- Optionally, additional customer functionalities can be integrated (3rd party solutions, other SAP Cloud application, Customer Apps, Syntax i4 Solutions)
- **Additional Applications**
 - Automation App – Scanning email for automatic document creation in S/4HANA
 - Low code fact App – Easy to use KPI Views for Mobile using SAP integration
 - Industry cloud solution App - ensures invoice document compliance from and to S/4HANA for one country by using DRC functionality
- **Monthly SAP Subscription**
 - GROW subscription fee (SAP S/4HANA Public edition base) - 15 users
 - Subscriptions for Integration suite, SAP Document and Reporting (DRC) and SAP Build
- **Package Price**
 - Starts at \$735,000 + \$8,000 monthly SAP GROW subscription fees + SAP subscription fee for additional SAP Solutions
 - Production start within 5.5 months
 - Optionally: Application management support and Syntax cloud services for S/4HANA

Option 3

GROW Differentiating

- **Digitized transformation – fast!**
- **On your way to digitize your entire end-to-end processes**
- **Provisioning and setup**
 - Provisioning and setup of base system landscape (S/4HANA Cloud Starter, Development, Quality and Production System) plus mandatory services (SAP Cloud Identity Services, SAP Central Business Configuration, SAP Cloud ALM and SAP BTP global account)
 - Setup of SAP Integration Suite, SAP Document Reporting and Compliance and SAP Build
 - Setup of SAP Digital Manufacturing
- **Processes**
 - SAP Best practice for S/4HANA Cloud
 - Sales, Standard Processes for Finance*, Enhanced Procurement, Inventory Management, Supply Chain Management, Asset Management, Manufacturing with Standard Quality Management, optional R&D
 - Digital Manufacturing shopfloor integrated with S/4HANA Cloud for real-time IT/OT convergence (e.g. automated bookings, labor assignments, monitoring and OEE)
 - Customer oriented process adaptations for

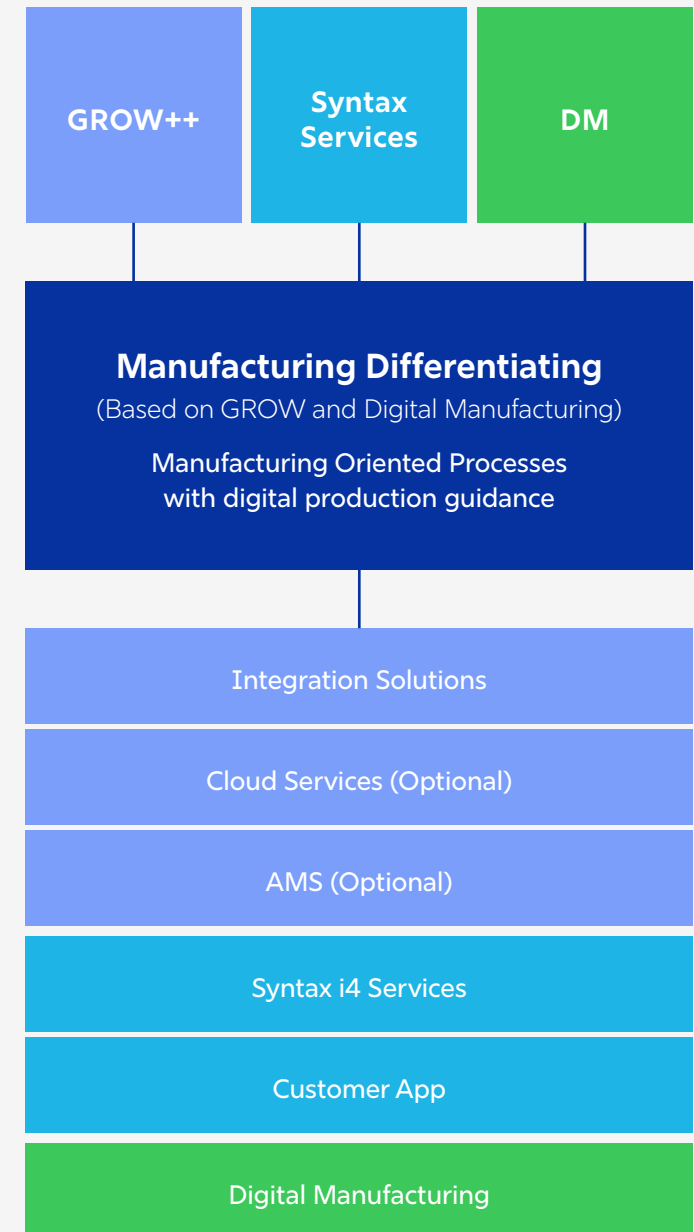

individual customer USP's by leveraging S/4HANA Cloud extension capabilities

▪ Integration

- Integration of required cloud services and processes based on best practice scope plus additional cloud services of Syntax GROW enhanced and differentiating package
- Usage of Standard BTP APIs to integrate manufacturing Top-floor Level and Shopfloor Level plus optional integration to R&D
- In addition, relevant applications e.g. PLM systems are connected to ensure seamless digital information flow
- Optionally, additional customer functionalities can be integrated (3rd party solutions, other SAP Cloud application, Customer Apps, Syntax i4 Solutions)

▪ Digital Manufacturing

- The SAP Digital Manufacturing bundle for execution is a cloud-based, data-driven shop-floor manufacturing execution solution that helps key stakeholders manage and produce high-quality products with manufacturing visibility and straightforward operations. It can be used for discrete, process, and continuous/repetitive manufacturing

▪ Additional applications

- Automation App – Scanning email for automatic document creation in S/4HANA
- Low code fact App – Easy to use KPI Views for Mobile using SAP integration
- Industry cloud solution App - ensures invoice document compliance from and to S/4HANA for one country by using DRC functionality

▪ Monthly SAP subscription

- GROW subscription fee (SAP S/4HANA Public edition base) - 15 user
- Subscriptions for Integration suite, SAP Document and Reporting (DRC) and SAP Build
- Subscriptions for Digital Manufacturing

▪ Package price

- Starts at \$980,000 US + \$8,000 monthly subscription fees + SAP subscription fee for additional SAP solutions
- Production start within 6.5 months
- Optionally: Application management support and Syntax cloud services for S4/HANA and Digital Manufacturing

Why choose SAP S/4HANA Cloud Public Edition?

Proven best practices

Incorporates industry-standard best practices.

Fast time to value

Guided implementation, fast technical setup, and intuitive, role-based interfaces.

Continuous innovation

Integrates AI, ML, RPA, and analytics for better business operations.

Automatic and continual updates

Managed by SAP, ensuring no extensive IT resources or business disruptions.

Security, compliance, and scalability

Includes backup, disaster recovery, system maintenance, data protection, and top-tier uptimes.

Open and extensible

Ready-to-go APIs with supporting tools and documentation for easy integration.

Why choose Syntax?

Application Management Services

Proactive AMS and managed services support. Includes first and second level Cloud application management support (AMS) for ERP and Digital Manufacturing processes using Syntax Service Desk. Syntax Cloud Services manage reporting, monitoring and particular IT services.

Manufacturing services industry specialization

Experienced people, leading processes, and world-class manufacturing software.

Pre-configured solution

Leading pre-configured manufacturing services solution designed to streamline businesses for maximum efficiency.

Faster, smarter, leaner methodology

Unique methodology designed to ensure each client receives maximum value for their investment.

Focused on mid-sized companies

Right-sized solutions and processes to help mid-sized companies implement SAP at a reasonable price.

Track record of success

20 years of experience focused on digital manufacturing and connected industrial equipment.

Commitment to innovation

Leading innovator in SAP Applications, Business Intelligence, Mobility, and Cloud solutions.

GROW with Syntax

Manufacturing companies that want to thrive in the years ahead need to do more than embrace innovation. They must redefine their strategic goals, rethink their customer value, and redesign their approach to products, services, supply chains, and partnerships. With Syntax's GROW for Manufacturing SAP Certified Pre-Packaged Solution, manufacturers are well-equipped to meet these demands, optimize their operations, and secure a prosperous future.
